New Issues

📝 As a developer, I would like a test suite where people can run their tests so we can make sure everything is running correctly.

GitLab Documentation

User Story vs Task

The screenshot displays the GitLab web interface for a project named 'Project_3a'. The left sidebar contains navigation links: Project, Pinned, Manage, Plan, Issues (14), Issue boards, Milestones, Iterations, Wiki, Requirements, Code, Build, Secure, Deploy, and Help. The main content area shows the 'Issues' section with a search bar and filters for 'Open' (10), 'Closed' (17), and 'All' (27). A list of issues is displayed, each with a title, description, and metadata. The issues are as follows:

- Issue 1:** **As a developer, I would like a test suite where people can run their tests so we can make sure everything is running correctly.** (User Story). Created 2 hours ago by Joseph Paul Prei. Labels: CS506: Architecture, Internal, Priority 2_High. Status: To do.
- Issue 2:** **Implement the register UI for the CLI** (Task). Created 2 hours ago by Joseph Paul Prei. Labels: CS506: Frontend Dev, Priority 2_High. Status: To do.
- Issue 3:** **Implement the login check for the backend** (Task). Created 2 hours ago by Joseph Paul Prei. Labels: CS506: Backend Dev, Priority 2_High. Status: To do.
- Issue 4:** **As a product owner, I want to have an understanding of how game displays in terminals work** (User Story). Created 5 days ago by Joseph Paul Prei. Labels: CS506: Frontend Dev, Priority 0_Low. Status: To do, updated 4 days ago.
- Issue 5:** **As a developer, I want MySQL to be setup as our database for the project** (User Story). Created 5 days ago by Joseph Paul Prei. Labels: CS506: Database, Priority 2_High. Status: To do, updated 3 days ago.
